Rakib Hussain

Full-Stack Developer | JavaScript & TypeScript

Moulvibazar, Sylhet, Bangladesh | +880 1615 992906 | alrokib44@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Developer specializing in JavaScript and TypeScript, building modern web applications and multi-tenant SaaS products with React, Next.js, Node.js, Express.js, Prisma, and PostgreSQL. Currently a Full-Stack Developer Intern working primarily on backend systems: REST APIs, authentication and authorization, database design, validation, testing, and third-party integrations. Independently develops substantial full-stack projects covering role-based access control, secure authentication, subscription billing, and file storage, with a focus on maintainable, tested code.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, Radix UI, React Hook Form, Zod, TanStack Query, Responsive Web Design

Backend: Node.js, Express.js, RESTful APIs, Authentication & Authorization, RBAC, API Validation, Error Handling, Backend Security, Third-Party API Integration (Stripe, Resend)

Database & ORM: PostgreSQL, Prisma ORM, Database Schema Design, Relational Data Modeling

Testing & QA: Vitest, Supertest, Testing Library, Playwright, API Testing, Debugging

Tools & Platforms: Git, GitHub, VS Code, Chrome DevTools, Vercel, Supabase

PROFESSIONAL EXPERIENCE

Full-Stack Developer Intern, Mastrus IT | Moulvibazar, Sylhet, Bangladesh

September 2026 – Present

- Develop and maintain RESTful APIs with Node.js and Express.js for an existing backend codebase.
- Implement authentication and authorization logic to secure endpoints and control access to resources.
- Design PostgreSQL database schemas and write SQL queries to support application data requirements.
- Add request validation and consistent error handling to make API behavior more reliable and predictable.
- Debug and fix backend defects, write backend tests, and take part in code reviews.
- Integrate third-party APIs and maintain existing backend services.

SELECTED PROJECTS

FlowPilot — Multi-Tenant Business Operations SaaS

Frontend | Backend

Next.js 16, React 19, TypeScript, Node.js, Express.js, Prisma, PostgreSQL, TanStack Query, Stripe, Supabase Storage, Vitest, Playwright

Ongoing independent project; Stripe runs in test mode and it is not a launched commercial product.

- Developed a multi-tenant SaaS (appointments, quotes, invoices, contracts, subscriptions, customer portal) with server-verified organization membership and role-based access control (Owner, Admin, Member, Billing).
- Secured the Express API with Argon2id password hashing, Helmet, CORS, tiered rate limiting, Zod validation, and Pino logging; addressed concurrency risks with PostgreSQL advisory locks and atomic sequence allocation.
- Integrated Stripe subscription billing (test mode), Supabase Storage for public and private files, and pluggable email providers (SMTP, Resend, SendGrid, Postmark).
- Wrote automated tests with Vitest and Supertest, including tenant-isolation and concurrency cases, and Playwright end-to-end tests.

Career Pulse — Job & Recruitment Platform

Case Study

Next.js, React, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, Tailwind CSS, Zod

Independent project; source code is not public.

- Developed a job circular platform with categorized listings, multi-criteria filtering, deadline countdowns, bookmarks, application tracking, and personalized dashboards.
- Implemented JWT-based authentication, role-based access control (users, editors, administrators), and email OTP verification via Nodemailer and Resend.

Focusly — Student Productivity Platform

Live Demo | GitHub

React, Vite, Tailwind CSS, Node.js, Express.js, Prisma, PostgreSQL, JWT, Recharts, Framer Motion

- Built a student productivity app with task management, weekly planner, goal tracking, analytics charts, and focus sessions with Pomodoro preferences.
- Implemented JWT access/refresh-token authentication, Zod validation, Helmet, and rate limiting on an Express, Prisma, and PostgreSQL REST API.

Personal Developer Portfolio

Live Site | GitHub

Next.js 16, React 19, TypeScript, Tailwind CSS v4, shadcn/ui, React Hook Form, Zod, Resend

- Built a responsive Next.js portfolio with a Zod-validated contact form delivered through Resend.

EDUCATION

Diploma in Computer Science and Engineering

Moulvibazar Polytechnic Institute | Final examination completed (result pending)
